-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 May 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

This action is in response to Applicant's amendment received on 29 May 2007.

Quayle Action

1. This application is in condition for allowance except for the following formal matters:

Claim Objections:

Claims 66-70 are objected to because of the following informalities: they contain typographical errors and unclear language.

In claim 66, change reference numeral "e" to --d-- and change reference numeral "f" to --e--. In lines 9 and 11, change "end thereof is a said cover connector folded over" to --end thereof is one of said *bendable* cover connectors folded over--. In line 15, change "wherein said cover connectors" to --wherein said *bendable* cover connectors--. The language in lines 15 and 16 is unclear. The language "wherein said cover connectors folded over said first cover end are maxima of undulations of said wire loop" implies that the cover connectors include the folded maxima of undulations portions only. However, Figure 8 clearly shows the connectors include the entire undulation and they are folded over at the maxima of the undulations. Appropriate correction is required.

In claim 67, change reference numeral "d" to --f--. Appropriate correction is required.

In claims 68 and 69, the claim language implies that the stent cover is in contact with the entire inner surface of the stent body, while Figure 8 clearly

shows portions that are not in contact. Therefore, it is recommended the claim reads as follows: --wherein said stent cover is in contact with an inner surface *portion* of said stent body--. Appropriate correction is required.

In claim 70, change "said cover connectors" to --said *bendable* cover connectors--. Appropriate correction is required.

Allowable Subject Matter

2. Claims 66-70, 75, and 76 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 66-70, 75, and 76 are allowable because the prior art fails to disclose or suggest in combination with other limitations of the claim, bendable cover connectors disposed at the periphery of the stent end and folded over the cover end at the maxima of undulations of the connectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nolting (Patent No. 6,099,559) discloses a cover and stent with connectors. However, the connectors are not folded over the cover at the maxima undulations. They are simply end caps disposed at the ends of the stent. Lazarus et al. (Patent No. 5,562,728) discloses a stent and cover. However, the connectors are not folded over. The bottom portion of the undulations simply overlap the cover. Bynon et al.

(Patent No. 5,667,523) discloses a stent and cover. However, the graft is folded over the stent. King et al. (5,192,311) discloses a fabric mesh folded over a substrate. However, the fabric mesh does not meet the structural limitations as claimed in claim 66 and there is no teaching or motivation to modify the structure to that as claimed.

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
